

KIMMTRAKCONNECT®

**Customized support
for patients with
metastatic uveal
melanoma (mUM) who
have been prescribed
KIMMTRAK®
(tebentafusp-tebn)**

Usage

KIMMTRAK is a prescription medicine used to treat HLA-A*02:01-positive adults with uveal melanoma that cannot be removed by surgery or has spread.

Important Safety Information Including Boxed Warning

What is the most important information I should know about KIMMTRAK?

KIMMTRAK can cause serious side effects that can be severe or life threatening and usually happen within the first three infusions, including:

- **Cytokine Release Syndrome (CRS). Symptoms of CRS may include:** fever, tiredness or weakness, vomiting, chills, nausea, low blood pressure, dizziness and light-headedness, headache, wheezing and trouble breathing, rash.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

Your nurse case
manager team

KIMMTRAK CONNECT[®]
is here to help

“It is so comforting talking to someone who understands my disease. Not everyone knows about this. Your team offers great resources on what to expect with my infusions.”

-KIMMTRAK CONNECT Patient

KIMMTRAK CONNECT is a support program available at no cost for adult patients receiving KIMMTRAK infusion for the treatment of metastatic uveal melanoma (mUM). Sponsored by Immunocore, the program matches patients and caregivers with a dedicated nurse case manager who is US-based and provides customized support—from financial assistance to scheduling appointments to educational support.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

While you are receiving KIMMTRAK, your nurse case manager may be able to:

- Help guide you through the services and support we offer.
- Identify financial assistance options that are right for you.
- Help with care coordination.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

Your nurse case manager team (continued)

Our tailored approach treats every patient as a unique person

Once you are enrolled in KIMMTRAK CONNECT, a dedicated nurse case manager who is oncology-focused will be matched to you by geographic region. Your nurse case manager will help identify resources and services that are available near you and guide you through the support offerings provided by KIMMTRAK CONNECT. In addition, your nurse case manager will offer educational support—answering any questions that you or your loved ones may have about KIMMTRAK or mUM.

Customized support

Your dedicated nurse case manager is ready to work with you one-on-one.

- Attentive service tailored to your needs.
- An experienced and dedicated support system.
- Coordination of care with all members of your care team.
- Prior authorization (PA) assistance.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

Financial assistance

Our focus is to help you access KIMMTRAK.

- If you have commercial or private insurance, such as through your employer, you may be able to lower your out-of-pocket costs with KIMMTRAK CONNECT.*
- If you are covered by Medicare or Medicaid, our team can help identify independent assistance foundations that may be able to help cover the costs of your treatment.

* Subject to terms and conditions of the program. Speak with your dedicated nurse case manager or visit [KIMMTRAKCONNECT.com](https://www.kimmtrakconnect.com) to learn more.

Care coordination

You focus on your treatment. We'll focus on helping you get there. Your nurse case manager may be able to:

- Assist you in investigating and locating affordable transportation options in your area to and from your KIMMTRAK infusions.
- Help coordinate infusion appointments that work best for you at the site of care you and your physician choose.

**To talk with a dedicated nurse case manager,
call 844-775-CARE (844-775-2273),
available Monday-Friday, 9 AM-7 PM (EST).**
Additionally, someone is available to help you 24/7.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

Education

Patient education is
an important part of
our mission

*"I really enjoy being able to talk to someone who
is knowledgeable about all of this."*

-KIMMTRAK CONNECT Patient

We are here to help you better understand your treatment journey, with answers to frequently asked questions and a list of commonly used terms that you may hear when learning about KIMMTRAK and mUM.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

Is KIMMTRAK an option for me?

Ask your doctor about getting a simple blood test to determine if KIMMTRAK is an option for you.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

FAQs

The FAQs below are just a small sample of answers to questions patients may have. A full list of frequently asked questions can be found at [KIMMTRAKCONNECT.com](https://www.kimmtrakconnect.com).

What if I need help getting to and from my KIMMTRAK infusions?

Your nurse case manager can help investigate affordable transportation options in your area.

Will my insurance cover KIMMTRAK?

While some insurance plans will cover KIMMTRAK, some may not. Your nurse case manager will help you find out what is covered by your insurance. They can also tell you about programs that may help if you do not have insurance or do not have enough insurance.

How do I get in contact with support groups?

Your nurse case manager can direct you to local, regional, and national support groups that address the unique needs of patients like you.

Glossary of terms

At [KIMMTRAKCONNECT.com](https://www.kimmtrakconnect.com), you can find definitions for terms you may read or hear when learning about KIMMTRAK and mUM, such as:

CD3 T cell receptor

CD3 is a group of proteins found on your body's T cells that play a part in activating T cells so that they fight disease.

Human leukocyte (loo-ko-site) antigen, or HLA

HLA is a substance found on the surface of most cells in your body. It plays an important part in your body's immune response.

Tebentafusp-tebn

Tebentafusp-tebn is the non-brand name of KIMMTRAK.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

Financial assistance

We help identify the options that are right for you

“Thank you so much for your help. It makes me feel a lot less stressed knowing that you and the field team are working on this, too.”

-KIMMTRAK CONNECT Patient

We may be able to help make your treatment more affordable. Different resources are available depending on the type of insurance coverage you have. Once we understand your needs, we may be able to help set you up with financial assistance.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

Understanding your coverage

- **Commercial or private health insurance** is medical coverage provided by your employer or purchased directly from a health insurance exchange (HIX) or individual healthcare policies.
- **Governmental insurance plans**, such as Medicare, Medicaid, and TRICARE, are state- and federally funded plans.
- **Uninsured patients** may also have options for financial assistance.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

Patients who have commercial or private health insurance

If you have commercial or private health insurance, we may be able to help lower the costs of KIMMTRAK.

Out-of-pocket costs

An annual balance is available from the start, so you can use as much as you need to cover your KIMMTRAK out-of-pocket costs.*

To be eligible, you should:

- Be 18+ years of age and a resident of the United States or Puerto Rico.
- Have a prescription for KIMMTRAK from your healthcare provider.
- Not have governmental insurance, such as Medicare, Medicaid, or TRICARE.

* Subject to terms and conditions of the program. Speak with your dedicated nurse case manager or visit [KIMMTRAKCONNECT.com](https://www.kimmtrakconnect.com) to learn more.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

Patients who have governmental insurance

If you have governmental insurance such as Medicare, Medicaid, or TRICARE, call KIMMTRAK CONNECT to get more information on foundations that may be able to help you pay your out-of-pocket costs for your medication.

These same foundations may offer support with the costs of treatment. Your dedicated nurse case manager can help connect you with the financial resources that best fit your unique situation.

Patients who are uninsured or underinsured

If you do not have insurance or you do not have enough insurance, we will work to help you find other ways to afford your treatment. A nurse case manager will look for other available options for cost coverage. These may include state health insurance exchanges. State drug assistance programs may be an option as well.

As a patient, the most important thing to remember is that you are not in this alone. Your nurse case manager is here to talk you through your options.

To learn more about financial assistance, visit [KIMMTRAKCONNECT.com](https://www.kimmtrakconnect.com) or call 844-775-CARE (844-775-2273), available Monday-Friday, 9 AM-7 PM (EST).

Additionally, someone is available to help you 24/7.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).

Indication and Important Safety Information Including Boxed Warning

Usage

KIMMTRAK is a prescription medicine used to treat HLA-A*02:01-positive adults with uveal melanoma that cannot be removed by surgery or has spread.

Important Safety Information

What is the most important information I should know about KIMMTRAK?

KIMMTRAK can cause serious side effects that can be severe or life threatening and usually happen within the first three infusions, including:

- **Cytokine Release Syndrome (CRS). Symptoms of CRS may include:** fever, tiredness or weakness, vomiting, chills, nausea, low blood pressure, dizziness and light-headedness, headache, wheezing and trouble breathing, rash.

Tell your healthcare provider right away if you get any of these symptoms. Your healthcare provider will check for these problems during treatment with KIMMTRAK. Your healthcare provider may temporarily stop or completely stop your treatment with KIMMTRAK if you have severe side effects.

See **“KIMMTRAK can cause other serious side effects”** for more information.

Before receiving KIMMTRAK, tell your healthcare provider about all of your medical conditions, including if you:

- are pregnant or plan to become pregnant. KIMMTRAK may harm your unborn baby. Tell your healthcare provider if you become pregnant during treatment with KIMMTRAK.

For females who are able to become pregnant:

- Your healthcare provider should do a pregnancy test before you start treatment with KIMMTRAK.
- Use an effective form of birth control during treatment with KIMMTRAK and for at least 1 week after the last dose of KIMMTRAK.
- are breastfeeding or plan to breastfeed. It is not known if KIMMTRAK passes into your breast milk. Do not breastfeed during the treatment with KIMMTRAK and for at least 1 week after the last dose of KIMMTRAK.

(continued)

Indication and Important Safety Information Including Boxed Warning (continued)

Tell your healthcare provider about all medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

KIMMTRAK can cause other serious side effects, including:

- **Skin reactions.** KIMMTRAK may cause skin reactions that require treatment. Tell your healthcare provider if you get symptoms of skin reactions—such as rash, itching, or skin swelling—that are severe and do not go away.
- **Abnormal liver blood tests.** Your healthcare provider will do blood tests to check your liver before you start KIMMTRAK and during treatment with KIMMTRAK. Tell your healthcare provider if you get symptoms of liver problems such as right-sided abdominal pain or yellowing of the skin or eyes.

The most common side effects of KIMMTRAK include:

- cytokine release syndrome (CRS)
- rash

- fever
- itching
- tiredness
- nausea
- chills
- stomach pain
- swelling
- low blood pressure (symptoms may include dizziness or light-headedness)
- dry skin
- headache
- vomiting
- abnormal liver blood tests

These are not all the side effects possible with KIMMTRAK.

Call your healthcare provider for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088 (1-800-332-1088).

Please read the accompanying Patient Information Leaflet before you receive KIMMTRAK and discuss any questions you have with your healthcare provider.

Please see [KIMMTRAK Patient Information](#).

Enrollment process

Enrolling in KIMMTRAK CONNECT is quick and easy.
To enroll, follow the three steps below.

Step 1

Complete the enrollment form online at KIMMTRAKCONNECT.com/enroll, by fax, or by phone at 844-775-CARE (844-775-2273).

Step 2

You will receive a confirmation email. If enrolling online, you will be directed to DocuSign to sign electronically.

Step 3

You will be contacted by your KIMMTRAK CONNECT nurse case manager.

Enroll by phone

Call a dedicated nurse case manager directly:

844-775-CARE (844-775-2273)

Available Monday-Friday, 9 AM-7 PM (EST)

Additionally, someone is available to help you 24/7.

Please see Important Safety Information including **BOXED WARNING for Cytokine Release Syndrome (CRS)** on pages 14-15 and see [KIMMTRAK Patient Information](#).
